

DICASTERY FOR CULTURE AND EDUCATION

Culture Section

CHAIR OF GENETICS AND HUMAN LIFE, MEXICO

On Monday, 10 November, and Tuesday, 11 November 2014, the *Cathedra of Genetics and Human Life* takes place. This cathedra has the patronage of the Pontifical Council for Culture, and present on this occasion will be Mons. Tomasz Trafny, who is responsible for the Department of Science and Faith in this Dicastery. He will present papers to representatives of more than 100 universities, although the Cathedra is open to the public in general.

This Cathedra represents an important element of society. Its themes are significant and treat in depth scientific and ethical projections. The mission of the *Cathedra of Genetics and Human Life* is to bring together academics and scientific knowledge, as well as ethical projection. The event takes place at the Auditórium of the University of Monterrey.
