LITERATURE, REVEALER OF MYSTERY

Vol. XXVIII 2020 N.3

Volume n. 3 XXVIII 2020 of the Journal has as its theme *Literature*.

Literature has the capacity to reveal the universal as it is found in diverse, particular locations, cultures and contexts. By leading us to look at things more closely, with a different perspective, writers have the ability to open us up to deeper truths. In this sense, it is an art that, as John Paul II said, "is by its nature a kind of appeal to the mystery."
